EXCLUSIVE QUALITY COLLECTION

2023-2024

QUALITY

Our factory is dedicated to producing only the highest quality products, ensuring that each and every piece meets our stringent standards.

Our process starts with selecting the finest materials from only the best Italian tanneries and continues with a rigorous, multi-stage quality control system throughout every step, from slicing to stitching and thread selection. Our team of skilled craftsmen, united by their shared passion and expertise, bring the pieces to life with their hand-made excellence.

KAIZEN

The company uses a quality control system based on the Japanese concept of Kaizen. This philosophy of continuous improvement is at the heart of the best modern methods of quality control. Kaizen カイゼン – means permanent improvement.

In production, Kaizen means the continuous improvement of standards, technology, conditions, criteria for evaluating results, in which everyone is involved - from top management to an intern.

KAIZEN

Kaizen generates process-oriented thinking, because in order to get better results, it is necessary to first improve processes.

Unlike the results-focused approach common among Western managers, Kaizen is designed for a person, to improve the principles of work and conditions.

ABOUT THE LEATHER

At BUVARDO, we are proud to source our leather from Italy, a country renowned for its tanners who possess a wealth of expertise and craftsmanship. The leather used in our products is of the highest quality, thanks to the skills of these Italian tanners who have a deep respect for tradition, but are also at the forefront of setting global fashion trends. Our leather is available in two categories, Full Grain and Cuoietto, each carefully selected to meet our rigorous standards of quality and durability

LEATHER CATEGORY CUOIETTO

Cuoietto leather is a type of chrome-tanned leather that is 2 mm thick. The front surface of the leather is coated with a layer of durable polyurethane, which provides protection from wear and tear, as well as from dirt and moisture. The polyurethane coating also acts as a color layer, giving the leather its distinctive hue. With its gorgeous colors, Cuoietto leather is sure to brighten up any office space, whether it has a modern or classic design.

LEATHER CATEGORY FULL GRAIN

Full Grain leather, also known as whole grain, is the highest quality and most natural category.

Made from the shoulder part of cow hide, primarily from France and Switzerland, it has a thickness of 2 mm. The facial layer is preserved with its natural pattern, stripes, and wrinkles, and only tanned using plant extracts to maintain its original, high-quality characteristics. It's the perfect choice for those who appreciate natural and authentic leather.

LEATHER CATEGORY FULL GRAIN

Full Grain leather originates from Tuscany, a region in central Italy. Tuscany, a historical region in central Italy, is home to most of the world-renowned leather factories specializing in Full Grain leather. The region is renowned for its leather-making expertise, with Florence being a hub for handmade leather accessory shops with a rich history of trade. Many top-class Italian shoe brands, such as Salvatore Ferragamo, are also based in Tuscany.

How to order

When choosing a pad to order, you must provide a template or a drawing in AutoCAD.

In the absence of exact dimensions, our representative will make all the necessary measurements, coordinate the AutoCAD model, and in a few days the pad will be ready!

* At your request, you can change the size and shape of the pad (check the exact cost of the new configuration with the manager).
